

Noel Tag Box

What you need:

- 3 x Cherry Cobbler cardstock
- 4 x Shaded Spruce cardstock
- 1 x Basic White cardstock
- 2 different DSP
- Holly Gems & Sequins

What to do:

- First, cut out all the pieces using the cutting guides provided in these instructions.

Assemble the drawers

- Take the Cherry Cobbler piece measuring 14cm x 10.5cm and score along all 4 sides at 2cm. Fold well across all score lines.
- Use the $\frac{3}{4}$ " circle punch to cut a notch out of the centre of one of the 10.5cm sides. IMPORTANT do this BEFORE gluing your drawer together. (Ask me how I know!!)
- Make 2 cuts at the top and at the bottom as shown to create an H-box, then glue these flaps inside to create a drawer.
- Repeat this with the other Cherry Cobbler piece and the two Shaded Spruce pieces measuring 14cm x 10.5cm to create four drawers in total.

Assemble drawer sleeves

- Take the Cherry Cobbler piece measuring 10cm x 21cm and score it at 2.2cm, 8.9cm, 11.1cm, 17.8cm then cut at 19.9cm to create a sleeve that is 10cm long and 6.5cm wide. Glue the small tab inside the sleeve as shown.
- Repeat this with the other Cherry Cobbler piece and the two Shaded Spruce pieces measuring 10cm x 21cm to create four sleeves in total.

Make the base

- Take the Cherry Cobbler piece measuring 19cm x19cm and the Shaded Spruce piece measuring 18cm x 18cm, and glue them together so they are centred.
- Position the sleeves on the base so each drawer opens on to a different side. There will be a square hole in the centre.
- Once you are happy with positioning, glue the bottom of the sleeves to the base. TOP TIP: use a liquid glue like Tombo to allow for adjustments to positioning. Take the drawers out so you can flatten the sleeves which makes it easier to press them down when gluing.

Make the top

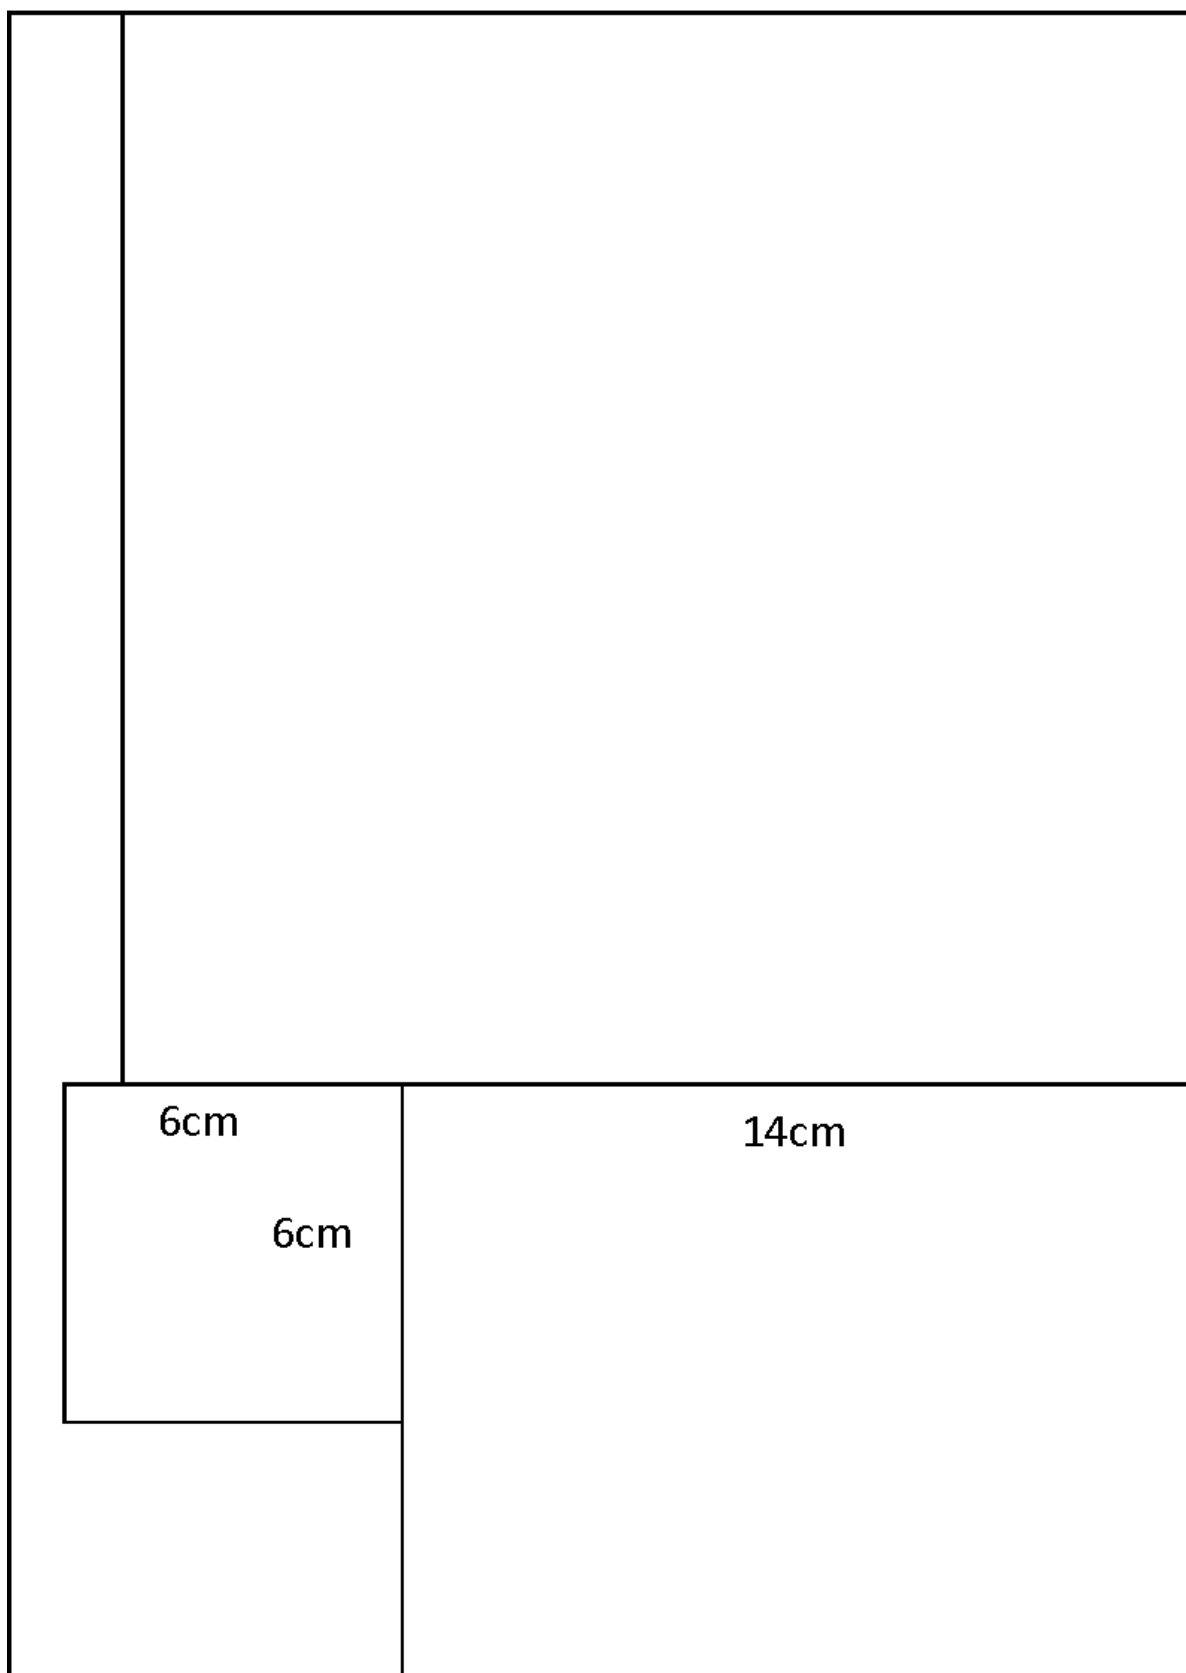

- Take the Cherry Cobbler piece measuring 19cm x19cm and the Shaded Spruce piece measuring 18cm x 18cm, and glue them together so they are centred.
- Cut a piece of DSP measuring 6" x 6", and a second piece of DSP measuring 5" x 5". Glue these on top of each other on the centre of the top. TOP TIP: consider gutting the centre of the DSP pieces as they will be covered up by cardstock.
- Take the Basic White piece measuring 11cm x 11cm and glue this to the centre of the top.
- Glue the top to the sleeves at this point, using Tombo to allow for easy positioning. TOP TIP: place it on it's side to check alignment with the base.
- Take the Shaded Spruce piece measuring 10.5cm x 10.5cm and put adhesive sheets on the back, then die cut using the holly frame die. Stick this to the centre of the top.
- Take the Basic White piece measuring 5.5cm x 5.5cm and stamp the "NOEL" stamp in the centre using Cherry Cobbler ink. Trim the corners to add a little extra detailing. Glue this to the piece of Cherry Cobbler measuring 6cm x 6cm, and stick to the centre of the top using foam dimensionals.
- Finish the box by adding Loose Gems and Holly leaves to the top.

Make the tags

- Take the Basic White pieces measuring 5.5cm x 5.5cm and stamp the "NOEL" stamp in the centre using Cherry Cobbler ink for 2 and Shaded Spruce for 2. Trim the corners to add a little extra detailing.
- Glue this to the pieces of Cherry Cobbler and Shaded Spruce measuring 6cm x 10.5cm as shown. Trim the top 2 corners to create a tag shape, and use a small hole punch or Cropadile to make a hole in the centre for the ribbon.
- Cut 4 lengths of ribbon measuring 14cm and fold through the holes in the tags.
- Take the Basic White pieces measuring 7.5cm x 5.5cm and stamp the "To, From" stamp in the top corner using Cherry Cobbler ink for 2 and Shaded Spruce for 2. Glue to the back of the tag.
- Die cut some Shaded Spruce sprigs and add to the top of the tag, using Loose Gems to finish. TOP TIP: use the adhesive sheets before die cutting.
