Hello!

Thank you for your recent order. This is the free tutorial and card kit as a thank you for using my hostess code, I hope you like it. I love the simplicity of these cards, they're so easy to make, and yet so effective

Embossing and DSP Stripe Card

What you need:

- Card blank in Basic White Thick cardstock (A4 cut in half at 14.8cm)
- Card layer in coloured cardstock cut to 7cm x 10cm
- Basic White layer cut to 6.5cm x 9.5cm
- DSP strip cut to 6.5cm x 2.5cm

What to do:

- Stamp your sentiment along the bottom of the Basic White piece, then run through the Cut and Emboss machine with an embossing folder. I use the Softly Sophisticated stamp and embossing folder free with SAB. TOP TIP: Don't put the whole piece of card into the embossing folder as you normally would, but leave the bottom third sticking out, so the sentiment isn't embossed.
- Glue the DSP strip onto the Basic White layer just above the sentiment, covering the bottom part of the embossed portion.
- Glue the Basic White layer to the coloured piece of cardstock that matches the sentiment. I used Boho Blue, Moody Mauve, Wild Wheat and Lost Lagoon, as these are the colours that go with the Poetic Expressions DSP.
- Finally mount the DSP and sentiment layer on to the front of your card blank using foam dimensionals.
